

WOULD PROTECT NEGLIGENT OWNERS

Dr. Woodward Opposes Bill Which Would Alter Drainage Act.

DEEMS IT OBJECTIONABLE

Senate Measure for Establishment of Board for Condemnation of Unsanitary Buildings Unfavorably Reported by the Health Officer.

The Health Officer recently submitted to the District Commissioners a report upon Senate bill 5199, designed to establish a board for the condemnation of unsanitary buildings. He takes strong ground against the bill which, in effect, is an amendment to the drainage act, and which, in his opinion, would operate to repeal existing law on the subject. He calls special attention to section 2 of the present law, which provides:

"That if the owner or owners of any such lot neglect or refuse to make such connections as are required by this act within thirty days after the receipt of such notice, such owner or owners shall be deemed guilty of a misdemeanor, and shall, upon conviction in the police court of said District, be punished by a fine of not less than one dollar or more than five dollars for each day he, she, or they fail or neglect to make such connections."

Relieves Negligent Owners.

"The proposed amendment," says the Health Officer, "relieves negligent or default property owners from all criminal liability whatsoever for their neglect or refusal to establish the necessary sewer and water connections for their property. In lieu thereof it authorizes the Commissioners to cause such connections to be made at public expense and to collect the cost of assessment."

"The scheme is equivalent to an advance from the United States Treasury for the improvement of private property, for which there appears to be no occasion. The recovery of the money so advanced would depend upon the numerous contingencies incident to the collection of special assessments through the machinery of the office of the Collector of Taxes and possibly to the courts, probably with the usual percentage of loss due to technical errors in the service of notices, etc."

Amendment Objectionable.

"The proposed amendment is, in my judgment, extremely objectionable and almost tantamount to the repeal of the law under which sewer and water connections are required."

"The report on the proposed amendment giving the board for the condemnation of unsanitary buildings jurisdiction over dangerous and unsanitary buildings on vacant lots has been made in connection with H. R. No. 3527."

MINOR MUNICIPAL MATTERS OF INTEREST

The Commissioners have directed that Drs. Thomas Robinson and E. G. Benson be reappointed members of the Board of Eclectic Medical Examiners for the term of three years, beginning June 24.

The Commissioners yesterday informed Gen. George H. Harries, vice president of the Washington Railway and Electric Company, and Mr. George T. Dunlop, president of the Capital Traction Company, that they have named Thursday, June 19, at 11 o'clock a. m., as the time for a public hearing upon Senate bill 6092, requiring the street railway companies to station uniformed flagmen at designated track intersections.

The Commissioners on the recommendation of the acting assessor have directed that the half tax for 1902 paid by the Franklin Fire Insurance Company be refunded on the ground that it was erroneously paid.

The engineer in charge of streets, Mr. W. P. Richards, has reported to the Commissioners that there is no authority under which the request of Mr. H. H. Elliott, of 1529 Fourteenth Street northwest, can be granted. Mr. Elliott asked that Sampson Street, between Fourteenth and Fifteenth Streets, be changed to Madison Street.

A report submitted by Dr. William Tindall, secretary to the Board of Commissioners, has been approved, relating to Senate bill 5409, to create a board for the condemnation of unsanitary buildings, that Senate bill 5390 contains a better remedy than that proposed in the bill under consideration, and, therefore, there is no need of giving attention further to bills upon this subject.

The Commissioners have referred to the City Solicitor a request of Rudden & Connor, who recently submitted a plat of the residue of their property situated at the junction of Lyndecker, New Hampshire and Sherman Avenues, requesting that the same be substituted for former subdivision. Assistant Engineer Richards has recommended that the revised plat be recorded if there is no legal difficulty.

Mrs. Julia E. Condit, of 1508 Thirteenth Street northwest, recently complained of the annoyance caused by boys climbing a cherry tree in front of her house. She also complained of the noise they made. Lieutenant Byrnes, of the Second police precinct, has reported that the cherries are now gone and with them the motive for climbing the tree, but that he has directed the officer on the beat to give attention to the matter.

On complaint of Joseph Burrell, of 1806 E Street northwest, an investigation was made by the police of the manner in which the saloon at the corner of Eighteenth and E Streets is conducted. Lieutenant Boyle, of the Third precinct, has reported that in general good order prevails there, or as good as is found around such places elsewhere. On recommendation of Major Sylvester, the papers in the case have been referred to the Excise Board for their consideration.

Mrs. H. S. Turner, of 2168 Florida Avenue, recently protested against the

unlawful fencing in of the parking around the premises of Mrs. Townsend, corner of Florida and Massachusetts Avenues. She says she owns property adjoining Mrs. Townsend's residence and that the fence is an encroachment on the lot which she is entitled to. The Superintendent of Roads has recommended adverse action, as the company has been required to place macadam in the two-foot space adjoining the tracks, but they have been given to understand that construction similar to that on Michigan Avenue would be permitted between the rails. It is believed that to require macadam construction in the tracks would work an unnecessary expense on the company, and that gravel would answer every practical purpose.

PURCHASE OF REALTY.

American Telephone and Telegraph Company Acquires Two Pieces.

Two valuable parcels of land were purchased yesterday by the American Telephone and Telegraph Company, one being located on the northwest corner of Fourteenth and R Streets, and the other on Twelfth Street, between G and H Streets. The total purchase price is stated to be \$30,000.

The deed for the first mentioned piece of property was placed on file by Mr. Edmund W. Van Dyke, conveying to the American Telephone and Telegraph Company lots 1 and 87, in square 207. The property is situated on the northwest corner of Fourteenth and R Streets northwest and the purchase price is stated to be \$25,000. The lots have a frontage of 45 feet on Fourteenth Street, with a depth of 140 feet on R Street.

The company purchased from William H. Knoch and others lot 23, in square 233, for \$25,000. The property is located on Twelfth Street, between G and H Streets northwest, and has a frontage of 45 feet on Twelfth Street and a depth of 150 feet.

It is understood that the Twelfth Street property will in the near future be made the headquarters of the telegraph company in this city.

DR. ATKINSON WANTS PAY FOR HIS SERVICES

Applies for Receiver for Mrs. Dennis' Estate.

States That the One Already Appointed Is Without Authority to Act in Premises.

For the third time since Mrs. Ada Gilbert Dennis was murdered, assaulted at her home, 1117 K Street northwest, December 10, a petition was filed in the Supreme Court of the District yesterday, asking that receivers be appointed to take charge of and manage her estate.

Four days after the assault her nephew and a sister jointly petitioned for the appointment of a receiver to take charge of her affairs and conduct the dressmaking business which she had been conducting. Four months later another petition was filed asking for the appointment of a receiver.

Both these petitions were acted on favorably by the court. Yesterday a third petition was filed, the applicant being Dr. Wade H. Atkinson, who was before and has been since the assault upon Mrs. Dennis her physician. Dr. Atkinson claims that Mrs. Dennis' estate is indebted to him in the sum of \$731 for professional services.

Removed to Hospital.

Immediately after being assaulted Mrs. Dennis was removed to Garfield Hospital for treatment. Dr. Atkinson states that, together with Drs. J. F. Thompson and A. B. Hoge, he has personally treated her injuries. He further states that he and the other physicians are of the opinion that so long as Mrs. Dennis lives she will be entirely incapacitated.

Dr. Atkinson states he is advised that Mrs. Dennis is the owner of personal property to the value of about \$1,000 and that there is probably several hundred dollars due her in her dressmaking business. He further states that she is the owner of a certain parcel of land near Gettysburg, Pa., and that prior to receiving her injuries she had bargained to sell this property and had received \$200 on account of the sale and that there is still due her \$1,200.

The First Receiver.

Dr. Atkinson then states that on December 14 last the court appointed Mrs. Anna S. Merchant to take charge of the personal estate and conduct the business. On April 29 last the American Security and Trust Company was substituted as receiver and has since been in charge.

It is further stated that neither Mrs. Merchant nor the American Security and Trust Company was clothed with authority to pay any of the debts owed Mrs. Dennis, nor to dispose of any of her estate. So it was, it is explained, that no provision was made for the payment of medical bills and like claims against her.

To Settle Indebtedness.

In his petition Dr. Atkinson makes the American Security and Trust Company a party respondent. He asks that the receiver appointed by the court in accordance with his petition be empowered to sell at private sale such of the personal property of Mrs. Dennis as may be deemed necessary to settle her indebtedness and pay for her support and maintenance; also that the receiver be empowered to make title for the conveyance of any of her real estate, located either in the District or elsewhere. He is represented by Messrs. Lockie & Fulton.

When the petition was presented to Justice Hagner he issued an order requiring the defendants to show cause on the 20th instant why a receiver should not be appointed with the power asked.

N. C. Pine Flooring Lumber Still \$1.50 per 100 square feet at Sixth and New York ave.

MACADAM ROADWAY.

Request of Brookland Citizens' Association Would Work Hardship.

The Brookland Citizens' Association has forwarded to the District Commissioners a request that the City and Suburban Railway Company be required to macadamize that portion of the Bunker Hill Road over which their tracks are laid with the same material as is used on the other part of said road.

The Superintendent of Roads has recommended adverse action, as the company has been required to place macadam in the two-foot space adjoining the tracks, but they have been given to understand that construction similar to that on Michigan Avenue would be permitted between the rails. It is believed that to require macadam construction in the tracks would work an unnecessary expense on the company, and that gravel would answer every practical purpose.

DEVICE TO LESSEN FALSE FIRE ALARMS

Invention of a Washingtonian Which Possesses Merit.

Can Be Attached at Small Cost to the Boxes Already in Use by the Department.

The District Commissioners, after a careful examination, have adopted a device which it is expected will materially lessen the number of false alarms turned in for the Fire Department to answer. This device is known as the Campbell fire alarm box. It is fitted with a system of levers which have to be turned before the box can be opened. Upon turning the levers a bright flash bursts forth from a closed cup above the box. This flash can be seen for several blocks at night, and will necessarily attract the attention of anybody in the vicinity.

Has Much Merit.

The device is the invention of a Washington man, and though new has satisfied the officers of the Fire Department and the Electrical Engineer that it has great merit. The levers can be attached to the fire boxes now in operation, and it is stated that the cost of its installation is not great.

For some time the department has been casting about for some mechanical arrangement that would reduce the number of false alarms. The Campbell invention is the most promising of the appliances which have been offered, and it will be given a thorough test with a view to its adoption upon all the fire boxes in the city.

Department Seriously Annoyed.

Mr. W. A. Allen, the Electrical Engineer, stated yesterday that the department had been seriously annoyed ever since the introduction of the present fire alarm system by the turning in of alarms by half-grown boys and others of a mischievous spirit. He said that it cost the Fire Department \$25 to respond to a false alarm, and the pecuniary problem involved in running to 100 or 200 false alarms every year is a serious one.

Mr. Allen is hopeful that the device adopted will serve as a practical prohibition of the practice which has prevailed so largely in the past, of calling out the department just to see the excitement attendant upon the running of the horses attached to the engines.

DESTROYED A TREE.

Report Against a Plumber Made to the Commissioners.

The District Commissioners recently received from the Superintendent of Parks a letter informing them that M. B. Casey, a plumber, in laying a pipe into premises 1231 B Street southeast, cut the roots of a tree, causing its destruction. The superintendent recommended that some action be taken toward prosecuting the man for the act complained of.

It appears from a report by the Inspector of Plumbing that the matter is fully covered in the police regulations, and the Commissioners have referred the matter to Major Sylvester for such action as the facts may warrant.

PATENTS ISSUED YESTERDAY

Inventors From All Sections of United States Represented.

The patent issue for Tuesday, June 11, comprises 214 patents, ten designs, forty-nine trademarks, sixteen labels, seven prints, and one release. Of this number 229 were issued to citizens of the United States, apportioned among the States as follows:

Arizona Territory, 2; Arkansas, 4; California, 10; Colorado, 19; Connecticut, 9; District of Columbia, 7; Georgia, 1; Hawaii Territory, 1; Illinois, 6; Indiana, 16; Iowa, 11; Kansas, 5; Kentucky, 1; Louisiana, 2; Maine, 2; Maryland, 4; Massachusetts, 21; Michigan, 19; Minnesota, 11; Mississippi, 3; Missouri, 17; Nebraska, 6; New Jersey, 24; New Mexico Territory, 1; New York, 90; North Dakota, 1; Ohio, 24; Oklahoma Territory, 1; Oregon, 2; Pennsylvania, 49; Rhode Island, 7; South Carolina, 2; South Dakota, 2; Tennessee, 3; Texas, 6; Utah, 2; Vermont, 1; Virginia, 2; Washington, 4; West Virginia, 3; Wisconsin, 11; Wyoming, 1; United States Navy, 1.

Patent rights were granted to the following residents of the District of Columbia: Philip T. Dodge, assignor to the Mergenthaler Linotype Company, linotype machine; Arthur E. Lowell, assignor to Lewis Armstrong, to Detroit Trust Company, Detroit, Mich., printer press; Tolbert Lanson, assignor to Lanson Linotype Machine Company, Washington, D. C., composite mechanism for type-machines; Emily A. Stockdale, lead-pen; William C. Salmon, steam cooking apparatus.

NOLLE PROSEQUI ENTERED.

Case of Thomas Mantz, Fruit Vendor, Thrown Out of Court.

The case of Thomas Mantz, the Greek fruit vendor who was arrested some days ago for violating the police regulations, and which was argued by counsel last Friday, came up in the Police Court yesterday morning. Prosecutor James J. Pugh immediately entered a nolle prosequi, saying that he had not sufficient testimony upon which to convict the man, as the police officer who arrested him did not know how long Mantz had been standing still with his cart.

The law under which this case was prosecuted requires that all fruit vendors with push carts shall keep on the move whenever they are on the street, and unless they are making a sale they cannot stand still. It appears to them a hardship and they are now going to test the law and fight the matter in the courts of the District of Columbia. It is the intention of the attorneys who represented the defendant in this case to ask a hearing before the Commissioners of the District, and seek relief from what now appears to be a burden to these vendors.

FINED FOR ASSAULT.

Heavy Penalty Imposed by Judge Kimball Upon Edward Kunkle.

Judge Kimball, in the Police Court, yesterday fined Edward Kunkle \$150 with the alternative of 270 days in jail, on a charge of assault.

Kunkle is a white man about forty years of age. During a disturbance Sunday morning, he is alleged to have stabbed a colored woman in the shoulder.
